# SERVOCHEM

**Servochem has grown from humble beginnings to become one of the leading chemical and solvent distributors in the Middle East.**

*Dr. Suresh was highly renowned in the chemical industry; however, it was through his hard work and persistence that the company is the success it is today. Starting Servochem in 1980, he utilized his extensive contacts and personal relationships across the globe to establish a flourishing business bridging continents at a time when the tyranny of distance made communication difficult.*

*An ability to speak many languages allowed him to build his network and unearth new and exciting suppliers around the world. Delivering affordable, quality products until then unknown to customers who of course came to appreciate his dedication to old fashioned service.*

*Well-known throughout the chemical world as a hard worker, relentless in his pursuit of the best options for both customer and supplier, he had a keen sense for finding opportunities where others would have given up.*

*At the helm of the organization, the company culture was indelibly stamped with his ethos.*
