

40 YEARS OF EXPERIENCE "Empowering Excellence to Improve Your Every Day".

SPECIALITY CHEMICALS *PRODUCT LIST*

SERVOCHEM produce specialties water treatment chemicals that are used during all process of different water treatment systems to optimize it.

A

Acid Inhibitors	Used as acid Corrosion inhibitors for HCl/HF systems.
Antifoams	Silica and Non silica based antifoams

B

Biocides	For Cooling Waters, RO Systems, Oily Water Systems, Potable Water Systems etc.
Bio-dispersants	For Cooling Towers
Boiler Fireside Chemicals	Combustion Improvers, Slag Modifiers, Scale and Corrosion Inhibitors.

C

Cartridge filters	The range is composed for polypropylene filters, cotton filters, activated carbon filters, with different sizes and different micron ratings.
Chelating Agents	Used as Iron control agents, scale removal and prevention
Corrosion Inhibitors	For Boiler Systems, Cooling Towers & Chilled Water Systems, Refinery Process Overheads

I

Ion Exchangers	A wide range of cationic and anionic gel, Isoporous, macro porous exchangers.
-----------------------	-------------------------------------------------------------------------------

M

Membranes	For sea water, brackish water, special membranes for tertiary waste water treatment plants.
------------------	---------------------------------------------------------------------------------------------

P

Polyelectrolytes	Flocculants for water and waste water treatment, mineral processing, paper, sugar and other industries.
-------------------------	---------------------------------------------------------------------------------------------------------

S

Scale Inhibitors	Scale & Sludge Conditioners for boiler systems, Cooling Towers, Sour Water Systems, Reverse Osmosis Systems, Evaporators & etc.
Surfactants	For cooling water, Evaporators.

T

Turbine Cleaner	On-line gas turbine compressor cleaning is performance with the engine running on load.
------------------------	-----------------------------------------------------------------------------------------
